

What a Surprise!

So much space
for a car
this size.

Ford Australia-We're moving with you.

FORD METEOR.

Surprisingly Spacious.

Try and guess the size of Meteor's interior from its outward appearance and you'll be in for a big surprise.

Because the Ford Meteor is spacious beyond expectation.

From the transversely mounted, front wheel drive engine to the specially designed seats – the Meteor with its efficient use of space was designed to give driver and passengers more room.

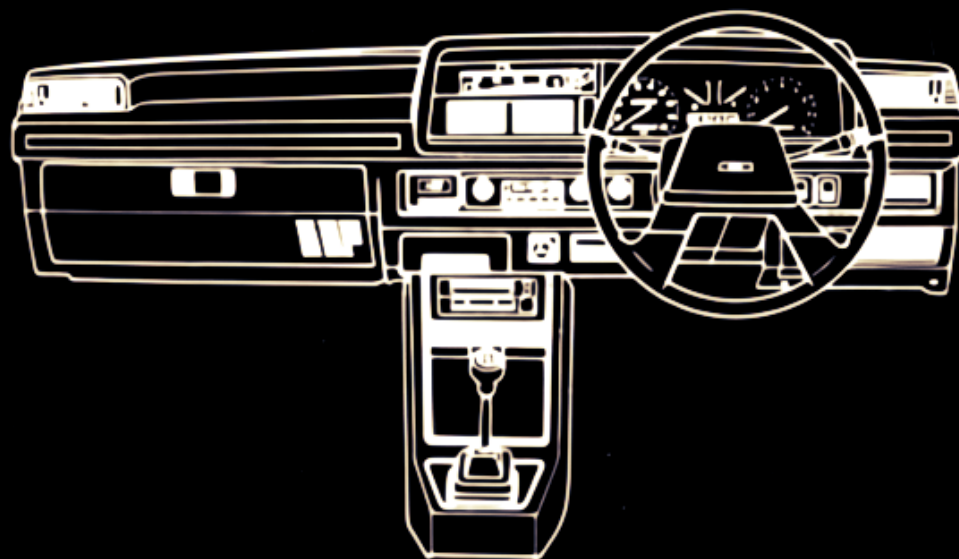

Surprisingly Well-Appointed.

Stretch out and enjoy the soft, well shaped seats.

Adjust the driver's seat cushion angle to better suit your driving position.

Switch on the push-button radio. Glance at the analogue quartz clock, the instrumentation with selected warning light facilities and the right-hand exterior rear view mirror with its interior remote control.

You're seated in a car designed for passenger and driver comfort.

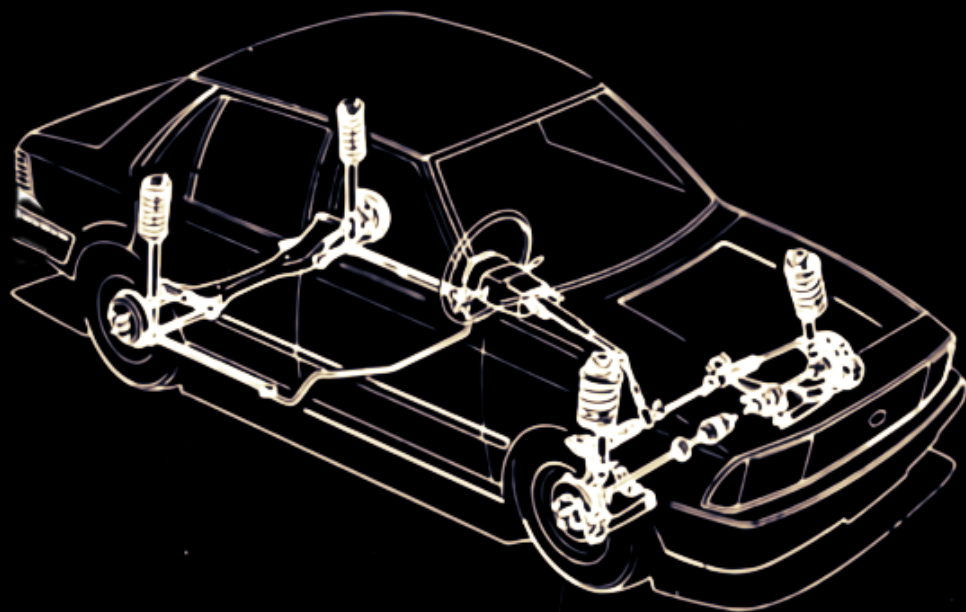

Surprisingly Well-Behaved.

Meteor's fully independent suspension provides the car with excellent roadholding and a smooth ride.

Its front suspension with negative scrub geometry produces a self-correcting force which helps restrain the car from steering off-course when one front wheel encounters soft sand or in the event of a sudden drop in tyre pressure.

Add precise rack and pinion steering, power assisted front disc brakes and you have a car in which you're the master

Surprisingly Frugal.

The Ford Meteor has excellent fuel efficiency. Just compare the fuel consumption of Meteor with other vehicles and you'll see what we mean.

Using a 1.5 litre engine that incorporates an alloy head, multi-spherical combustion chambers and an overhead camshaft, Meteor provides excellent fuel economy without sacrificing performance.

Selected Fuel Economy Data

This data is based upon AS2077 - 1979 tests.

1.5 litre 5-speed manual

1.5 litre 4-speed manual

CITY CYCLE
8.0 l/100km 35.3 mpg

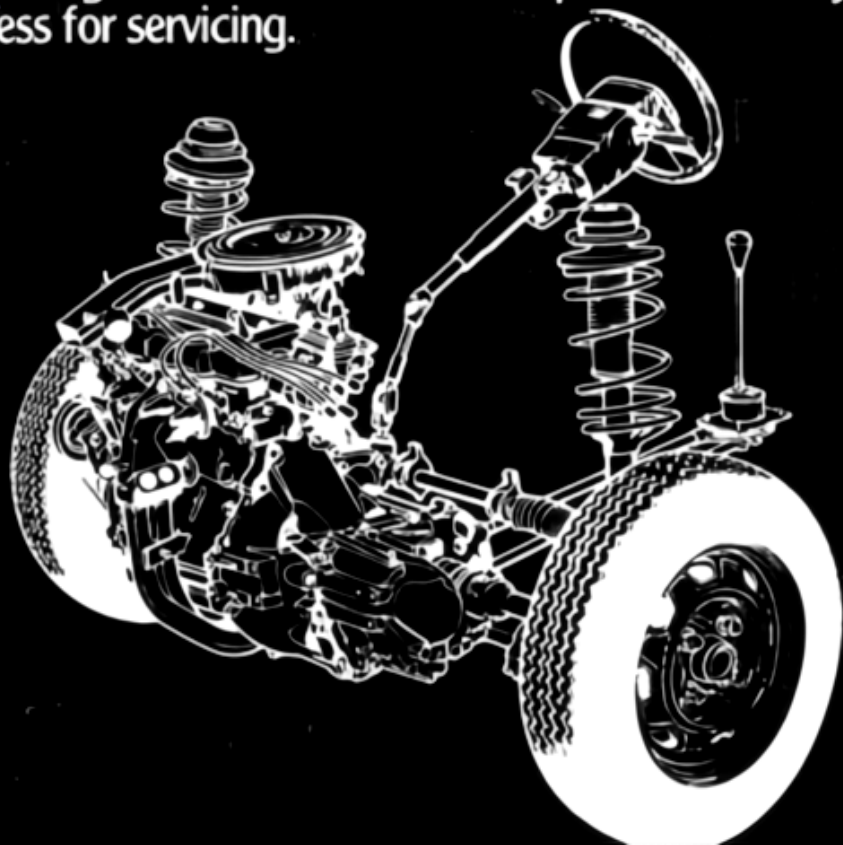

HIGHWAY CYCLE
6.0 l/100km 47.1 mpg

These figures are provided to assist you in comparing the fuel consumption of Meteor with other vehicles. The actual fuel consumption you achieve will depend, however, on many factors, including your driving habits, the prevailing conditions and your vehicle's equipment, condition and use. Fuel economy data for the other available engine/transmission combinations can be obtained from an Authorised Ford Dealer

Surprisingly Engineered.

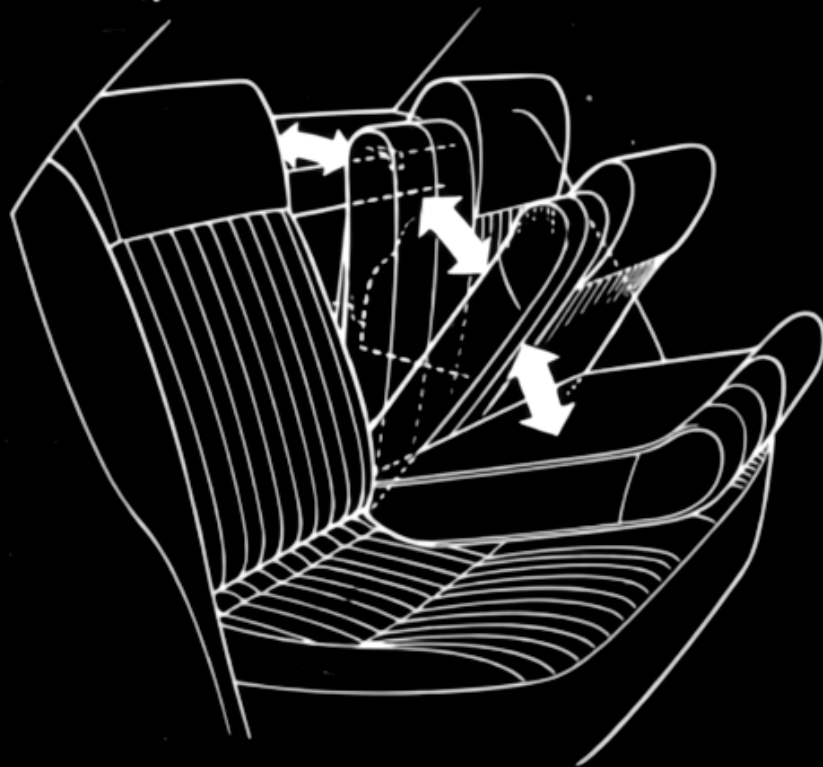

The Meteor features front wheel drive which provides a feeling of positive traction as well as eliminating the need for a bulky drive-shaft and rear differential.

Its transverse mounted engine as well as providing a more efficient use of space allows easy access for servicing.

The Unexpected Extra.

With 12.9 cubic feet of bootspace, Meteor has one of the largest boots in its class. And the Meteor has an unexpected extra. Lift a knob and the rear seat backrests fold down. So you'll have room for even more luggage. And the backrest is split so you can have extra luggage space and still have seating for a third occupant.

METEOR GL

Surprisingly Spacious.

The Ford Meteor is spacious beyond expectation. It was designed with driver and passenger space and comfort in mind.

And it is surprisingly well-appointed. The Meteor's features range from precise rack and pinion steering and fully independent suspension to features like push-button radio and analogue quartz clock.

METEOR GHIA

Surprisingly Luxurious.

The Ghia name, has become associated with luxurious appointments and elegant looks. The Meteor Ghia is no exception. Its modern styling, subtle pinstriping and wide bodyside moulding, present a bright and distinguished appearance. Its features range from AM/FM radio and stereo cassette player to elegant velour cloth seats giving the Meteor Ghia just the right air of tasteful opulence.

Rear mudflaps illustrated are dealer fitted accessories available at extra cost.

METEOR "S" PACK

Surprisingly Sporty.

Add some extra flair to your Meteor GL by ordering it with the "S" Pack option. Its distinctive body striping, blackout treatment, fog lamps, alloy wheels with a gold finish, ZR70 Series Steel belt radials and distinctive cloth seat facings, transform the sleekly shaped Meteor into a sporty looking saloon.
